8. DISCUSSION ITEMS:

A. Discussion of Tusayan Fire Department's Budgetary Needs

Tusayan Fire District (TFD) Board Member John Vail presented information to the Council regarding funding needs of the Fire Department. He discussed options they've explored to increase their funds. Annexation of Ten X and Kotzin Ranches adds less than \$3,000 of revenue to the Fire Department.

Board Member Andrew Aldez discussed additional funding possibilities they are exploring along with the Grand Canyon School District.

Board Member Vail also discussed investigation of annexing Valle into the District. They have determined that providing services there would cost more than could be gained by taxing the property. He also stated that TFD responded to 500 calls last year with only 3 personnel. For comparison, Highland Fire Department responded to a similar number of calls last year with a staff of 21.

Councilmember Rueter requested the issue come back to the Council on February 6, 2013 to make a decision on possibly providing funding.

Mayor Bryan directed Manager Ryall to investigate ramifications of purchasing a piece of equipment vs. providing funding for the TFD and to develop a recommendation so Council will have that information prior to making a decision.

Councilmember Fitzgerald voiced his support of providing funding, at least temporarily, to the TFD.

Board Member Vail stated that the current need is \$148,000 per year and TFD estimates the need will be reduced when current developments in progress are completed.

10 Minute Beak (7:53-8:03pm)

The Council moved to:

7. ACTION ITEMS:

A. Consideration, discussion, and possible approval of a contract for a Town of Tusayan Drainage Study

Manager Ryall introduced Jeff Holzmeister, an Engineer from J2 Engineering, who would be one of the personnel to perform the work described in the contract.

Mr. Holzmeister has reviewed previous studies in the area and discussed an approach of developing a plan to deal with flood control, working on a time and materials basis. His approach would also incorporate a multi-use solution where a drainage area also functions as a park or other such usable space.

The Council discussed the need and scope of the contract with Mr. Holzmeister and Bob Petzholdt from the South Grand Canyon Sanitary District.

Councilmember Sanderson made a motion to approve the contract. Councilmember Rueter seconded the motion. Councilmember Sanderson clarified that the rates in the contract are hourly rates. Mr. Holzmeister confirmed. Councilmember Sanderson also asked how long it may take to reach the cap of \$40,000. Mr. Holzmeister estimates several months. Councilmember Sanderson noted that there is no mention in the contract of travel costs. Council

directed Ms. Ryall to add a line on the Fee Schedule to reimburse J2 Engineering at actual cost. The motion passed unanimously.

B. Consideration, discussion, and possible approval of a contract for a Broadband Network Strategic Plan

Manager Ryall gave an overview of the contract to the Council. Mayor Bryan made a motion to approve the contract with NI Solutions. Councilmember Rueter seconded the motion and it passed on unanimous vote.
