

2034 General Plan – Rewrite

The Town has embarked on a comprehensive rewrite of its primary long-range planning document. For starters, it is important to understand what the General Plan is:

- A tool for education and communication
- More than a land use map
- An expression of participating residents' preferences
- A statement of Town growth management policy
- A guide to public and private decision making
- A long-term perspective for municipal progress
- A blueprint to improve residents' quality of life

And what the General Plan is NOT:

- A zoning map
- A tool to promote special interests
- An unchangeable document
- A detailed policy for specific properties or areas
- A capital improvement program

Whilst the document is anticipated to take several months to complete, public input is encouraged early in the process. This Summer, the Town is anticipated to provide a working draft of the updated plan for public and partner agency comments, with a link to be provided here. Until that time the CURRENT General Plan can be reviewed here: (put link to existing General Plan here)

Public Comments can be provided here: (jason@sanksassociates.com and phone (602) 326-0581
